## PROFESSIONAL SUMMARY

Detail-oriented Computer Science Engineering student (2023–2027) with hands-on experience in data analytics, exploratory data analysis (EDA), data cleaning, dashboard development, and AI-powered full-stack web application development. Completed a Data Analytics internship at 3Skill Training and independently built two major projects — IMDb Movie Analytics and ClimateAware AI Web App — demonstrating proficiency in Python, SQL, Power BI, Next.js, Django REST Framework, and Google Gemini AI. Passionate about transforming data into actionable insights and building intelligent, user-focused applications.

## EDUCATION

### B.Tech — Computer Science Engineering

2023 – 2027

BBD University, Lucknow, Uttar Pradesh | Expected Graduation: 2027

Relevant Coursework: Data Structures, Database Management Systems, Machine Learning, Statistics, OOPs

## INTERNSHIP EXPERIENCE

### Data Analytics Intern | 3Skill Training

Jan 2025 – Mar 2025

Certificate ID: ID-INTERN260353

- Performed Exploratory Data Analysis (EDA) on real-world datasets to identify trends, patterns, and anomalies using Python (Pandas, NumPy, Matplotlib, Seaborn).
- Conducted end-to-end data cleaning and preprocessing including handling missing values, outlier detection, and feature formatting to ensure data quality.
- Built interactive Power BI dashboards to visualize KPIs and business metrics, enabling data-driven decision-making.
- Analyzed structured datasets using SQL and Python to extract meaningful insights and generated summary reports aligned with business goals.
- Documented findings and presented results using PowerPoint, applying project-based learning aligned with industry standards.

## PROJECTS

### IMDb Movie Analytics | Python | Pandas | NumPy | Matplotlib | Seaborn | Jupyter Notebook

- Built a complete data analytics pipeline to investigate financial performance patterns across 5,000+ movies using real-world IMDb and Kaggle datasets.
- Performed end-to-end EDA including distribution analysis, budget-revenue correlation, and genre-level profitability comparison using Matplotlib and Seaborn.
- Engineered derived financial metrics — Profit and ROI — uncovering that mid-budget films often outperform high-budget productions in return on investment.
- Delivered a fully reproducible Jupyter Notebook with documented analytical decisions, publication-quality visualizations, and a cleaned dataset hosted on GitHub.

### ClimateAware — AI-Powered Climate Awareness Web App | Group Project | Next.js | Django REST |

Tailwind CSS | SQLite | Google Gemini AI

- Developed a full-stack AI-powered web application integrating a Google Gemini AI chatbot for personalized climate change education across 100+ topic areas.
- Built a Next.js 14 frontend with TypeScript and Tailwind CSS featuring a Hero Section, Awareness Statistics, Daily Eco-Actions module, and an interactive Climate Quiz.
- Designed a Django REST Framework backend with a chat history API and SQLite database to store user interactions, enabling future analytics on awareness gaps.

- Deployed the full application publicly — Next.js frontend on Vercel and Django backend on Railway — with a smart fallback system ensuring high availability.

### **Power BI Business Intelligence Dashboards** | *Power BI | DAX | Data Modelling | Excel*

- Designed interactive BI dashboards in Power BI to visualize KPIs, sales trends, and operational metrics using DAX formulas and drill-through features.
- Applied data modelling and relationship mapping across multiple tables to produce dynamic, user-friendly reports for business decision-making.

## **TECHNICAL SKILLS**

---

**Programming Languages:** Python, SQL, C, Java, HTML, CSS

**Data Analytics & Science:** Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Statistical Analysis, Feature Engineering, Data Visualization

**Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Django REST Framework

**BI & Visualization Tools:** Power BI (DAX, Data Modelling), Microsoft Excel (Advanced), PowerPoint

**Databases:** PostgreSQL, SQLite

**Tools & Platforms:** Jupyter Notebook, Google Colab, GitHub, VS Code

## **CERTIFICATIONS**

---

- Data Analytics Internship Completion — 3Skill Training (Certificate ID: ID-INTERN260353)
- Python and SQL for Data Science
- Data Science and Analytics — HP LIFE
- Power BI Bootcamp
- AI Tools Bootcamp
- Python Programming | C Programming | Java Programming
- 3-Day Bootcamps: HTML, CSS, JavaScript, Python, Java, Git & GitHub

## **SOFT SKILLS**

---

Critical Thinking • Problem Solving • Logical Reasoning • Communication • Adaptability • Organizational Skills • Interpersonal Skills

## **EXTRACURRICULAR ACTIVITIES**

---

- Technical Team Head— AAINA (College Cultural Forum), BBD University
- Volunteer — Muskurahat Foundation NGO: supported quality education initiatives for underprivileged children
- Graphic Designer — created digital creatives using Canva for college events and social media campaigns
