PROFESSIONAL SUMMARY

Computer Science Engineering student (2023–2027) with proven experience across the full data pipeline — analytics, EDA, ML model development, and AI-powered web deployment. Data Analytics Intern at 3Skill Training (Jan–Mar 2025): delivered EDA pipelines, Power BI dashboards, and SQL-based reporting on real-world datasets. ML Summer Trainee at GRAS Tech (May–Jul 2025, 90 hrs): designed, trained, and deployed three end-to-end Scikit-learn classification and regression apps on Streamlit Cloud. Seeking a Data Science / Analytics placement role where Python, ML, and BI skills can drive business impact.

EDUCATION

B.Tech — Computer Science Engineering

2023 – 2027

BBD University, Lucknow, UP | Expected: 2027 | CGPA: [Add] | Coursework: Data Structures, DBMS, Machine Learning, Statistics, OOPs

EXPERIENCE

Summer Training — Machine Learning

June – Jul 2025

GRAS Tech | 90-Hour Industry ML Programme Certificate ID: GRAS/PBT/ML/009

Trained across the end-to-end Machine Learning lifecycle: Data Analysis, EDA, feature engineering, encoding, scaling, cross-validation, model selection, predictive modelling, model evaluation, joblib serialisation, and Streamlit deployment.

- Built and deployed 3 Scikit-learn apps on Streamlit Cloud: Customer Churn Predictor (classification), Email Spam Guardian (multi-model benchmark), Employee Salary Predictor (regression).
- Practised consistent pipeline discipline — re-implementing training-time transforms at inference, 80/20 splits with `random_state=42`, and Plotly gauges for all prediction outputs.

Data Analytics Intern

Jan – Mar 2025

3Skill Training | Certificate ID: ID-INTERN260353

- Performed EDA on real-world datasets using Python (Pandas, NumPy, Matplotlib, Seaborn) — identified trends, missing-value patterns, and outliers across structured business data.
- Built Power BI dashboards with DAX measures to visualise KPIs; wrote SQL queries for segmentation, aggregation, and report generation aligned with stakeholder goals.
- Delivered findings via PowerPoint presentations; completed end-to-end projects from raw data to actionable business insight within a structured internship framework.

PROJECTS

Customer Churn Predictor [Live App](#) | [GitHub](#)

Python | Scikit-learn | Logistic Regression | Streamlit | Plotly

- Binary classification on Telco Churn (7,043 rows × 21 cols): fixed dtype nulls in TotalCharges, one-hot encoded 30 features; Logistic Regression → Acc 80%, Recall 57%, Precision 65%.
- Dark-themed Streamlit UI with Plotly live gauge, sidebar input form, and rule-based risk-signal list; documented low recall as next-step target for class-weighting / ensemble upgrade.

Email Spam Guardian [Live App](#) | [GitHub](#)

Python | Scikit-learn | Random Forest | TF-IDF | Streamlit | Plotly

- Benchmarked 4 classifiers (LR, DT, RF, Naïve Bayes) with 5-fold stratified CV; engineered email_domain, subject_length, is_urgent_flag; ColumnTransformer for selective scaling.
- Random Forest → Acc 99.9%, ROC-AUC 1.00; near-perfect scores flagged as likely synthetic-data signal and documented in app; postal-inspection UI theme with cached pipeline loading.

Employee Salary Predictor [Live App](#) | [GitHub](#)

Python | Scikit-learn | Linear Regression | Streamlit | Plotly

- Regression on 5,020 employee records (16 cols): IQR outlier removal on target, ordinal encoding for Education & Job Level, StandardScaler on numeric columns only.
- Multiple Linear Regression → R^2 0.915, MAE 2.72 LPA, RMSE 3.87 LPA; navy-gold glassmorphic Streamlit UI; resolved scikit-learn version mismatch on Streamlit Cloud deployment.

IMDb Movie Analytics [GitHub](#)

Python | Pandas | NumPy | Matplotlib | Seaborn | Jupyter Notebook

- Data Analysis pipeline on 5,000+ IMDb movies: engineered Profit & ROI metrics via Exploratory Data Analysis (EDA) revealing mid-budget films outperform high-budget on ROI; statistical distribution, correlation, and genre profitability analysis.

ClimateAware — AI Climate Web App [GitHub](#)

Next.js 14 | TypeScript | Django REST | Tailwind CSS | Google Gemini AI | Vercel | Railway

- Full-stack AI app: Next.js 14 frontend (Hero, Stats, Eco-Actions, Quiz) + Django REST backend (SQLite chat history API) + Gemini AI chatbot across 100+ climate topics; deployed on Vercel & Railway.

Personal Portfolio Website [Live App](#) | [GitHub](#)

HTML | CSS | JavaScript | GitHub Pages

- Responsive portfolio deployed on GitHub Pages — showcases ML projects, Streamlit live apps, internship experience, and certifications; zero hosting cost.

Power BI Business Intelligence Dashboards [GitHub](#)

Power BI | DAX | Data Modelling | Excel

- Interactive dashboards with DAX measures, drill-through filters, and cross-table relationship mapping; visualised KPIs, sales trends, and operational metrics for business decision-making.

TECHNICAL SKILLS

Languages: Python, SQL, C, Java, HTML, CSS

Data & ML: Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Feature Engineering, Statistical Analysis, Predictive Modelling, Model Evaluation, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Joblib

Web & Deployment: Streamlit, Django REST Framework, Next.js, React.js, Tailwind CSS, TypeScript, Vercel, Railway, Streamlit Cloud

BI & Visualisation: Power BI (DAX, Data Modelling), Business Intelligence Dashboards, Plotly, Microsoft Excel (Advanced), Data Storytelling

AI & Databases: Google Gemini AI, REST APIs, TF-IDF, PostgreSQL, SQLite

Tools: Jupyter Notebook, Google Colab, GitHub, VS Code, MS Office Suite

CERTIFICATIONS

- Summer Training in Machine Learning — GRAS Tech (90 Hours) | Certificate ID: [Update ID]
- Data Analytics Internship Completion — 3Skill Training | Certificate ID: ID-INTERN260353
- Data Science and Analytics — HP LIFE
- Python and SQL for Data Science
- Power BI Bootcamp
- AI Tools Bootcamp
- Python Programming | C Programming | Java Programming
- 3-Day Bootcamps: HTML, CSS, JavaScript, Python, Java, Git & GitHub

SOFT SKILLS

Critical Thinking • Problem Solving • Logical Reasoning • Communication • Adaptability • Organisational Skills • Interpersonal Skills

EXTRACURRICULAR ACTIVITIES

- Technical Team Head — AAINA (College Cultural Forum), BBD University
- Volunteer — Muskurahat Foundation NGO: supported quality education initiatives for underprivileged children
- Graphic Designer — created digital creatives using Canva for college events and social media campaigns
